Ankle Disability Mini -DBQ (Disability Benefits Questionnaire)

Please mark your diagnosed conditions from the following *(Check all that apply):*

☐ Lateral Collateral Ligament Sprain (chronic/recurrent)	☐ Deltoid ligament sprain
☐ Osteochondritis dissecans to include osteochondral fracture	☐ Impingement (anterior/posterior/anterolateral)
☐ Tendonitis (Achilles/peroneal/posterior tibial)	☐ Retrocalcaneal bursitis
☐ Achilles tendon rupture	☐ Osteoarthritis of the ankle
☐ Avascular necrosis	☐ Ankle joint replacement
☐ Ankylosis of ankle, subtalar or talar joint	☐ Others, specify:

Which ankle is service connected?

☐ Right Ankle ☐ Left Ankle ☐ Both Ankles

Please answer the following questions related to your disease:

a) When and how did you first experience the symptoms of this disease?

b) In your own words, how does this condition affect your daily life and ability to work (walking, sitting, pain)?

c) Did the symptoms get worse over time? If so, what makes the symptoms worse? (e.g. lifting weights, working etc.)

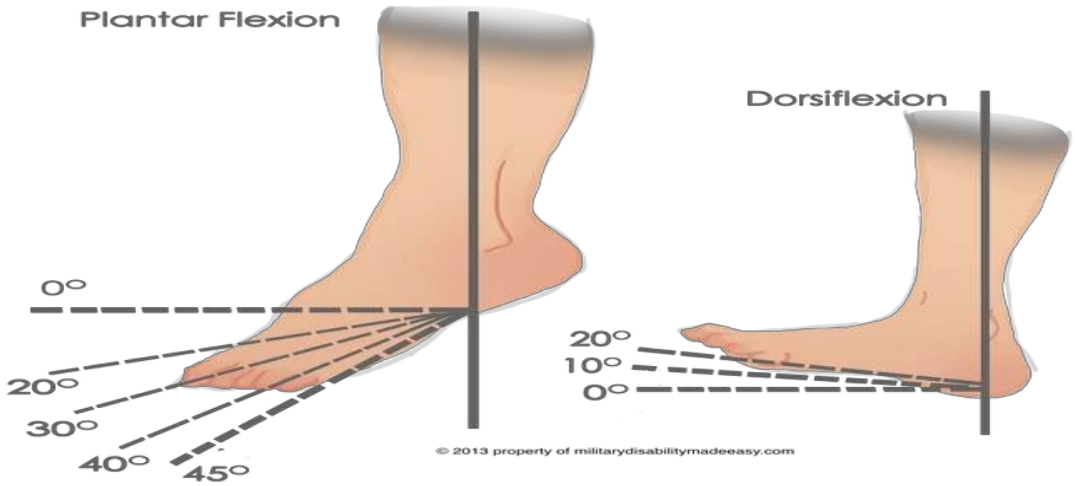

d) Do you experience flare-ups (worsening of symptoms)? If so, how do these flare-ups affect you (e.g. weakness, fatigue, loss of movement)?

Ankle Disability Mini -DBQ (Disability Benefits Questionnaire)

RANGE OF MOTION FOR THE ANKLE: PLANTAR FLEXION AND DORSIFLEXION

RANGE OF MOTION: PLANTAR FLEXION Sitting down, bend your ankle downward (as shown below)	
Left Ankle	**Right Ankle**
To which degree can you flex your ankle? *(45degress is full range of motion)*	To which degree can you flex your ankle? *(45degress is full range of motion)*
FLARE-UPS: Think about your ankle disability over the past year at its worst during a flare-up or when it starts HURTING.REMEMBER THIS NUMBER SHOULD BE LESS THAN THE ONE ABOVE	
To which degree can you flex your ankle? *(45degress is full range of motion)*	To which degree can you flex your ankle? *(45degress is full range of motion)*

RANGE OF MOTION: DORSIFLEXION Sitting down, straighten out your leg and pull your foot towards you as shown in figure.	
Left Ankle	**Right Ankle**
To which degree can you extend your ankle? *(20degress is full range of motion)*	To which degree can you extend you ankle? *(20degress is full range of motion)*
FLARE-UPS: Think about your ankle disability over the past year at its worst during a flare-up or when it starts HURTING.REMEMBER THIS NUMBER SHOULD BE LESS THAN THE ONE ABOVE	
To which degree can you flex your ankle? *(20degress is full range of motion)*	To which degree can you flex your ankle? *(20degress is full range of motion)*

Ankle Disability Mini -DBQ (Disability Benefits Questionnaire)

Please check all symptoms/contributing factors that apply to your disability:

☐ Less movement than normal	☐ More movement than normal
☐ Weakened movement	☐ Excess fatigability
☐ Incoordination (impaired ability to execute skilled movements smoothly)	☐ Pain on movement
☐ Swelling	☐ Deformity
☐ Atrophy of disuse	☐ Disturbance of locomotion (movement)
☐ Interferes with sitting	☐ Interferes with standing

Ankylosis

Ankylosis is the immobilization and consolidation of a joint due to disease, injury or surgical procedure. (*Please skip this section if you are not diagnosed with ankylosis)*

Please indicate the side affected with ankylosis**:**

☐ Right side ☐ Left side

Please describe the severity of ankylosis in your own words (Joint stiffness, difficulty in movements etc.)

Do you use assistive devices? If yes, specify assistive device and indicate frequency of use (Occasional, regular, constant):

Ankle Disability Mini -DBQ (Disability Benefits Questionnaire)

Additional Information

CERTIFICATION - To the best of my knowledge, the information contained herein is accurate, complete and current. I understand that overstating the severity of my conditions on official Disability Benefits Questionnaires (DBQs) could result in loss of benefits and/or be consider fraudulent. I am conveying the severity of my symptoms to the best of my ability on this personal assessment form. No one has advised me to misrepresent my conditions or overstate the severity of my symptoms.
