Elbow Disability Mini -DBQ (Disability Benefits Questionnaire)

Please mark your diagnosed condition from the list below:

- ☐ Olecranon Bursitis
- ☐ Lateral Epicondylitis
- ☐ Instability (medial/post lateral rotatory)
- ☐ Osteoarthritis
- ☐ Other, specify:
- ☐ Triceps Tendinitis
- ☐ Medial Epicondylitis
- ☐ Dislocation
- ☐ Total elbow arthroplasty
- ☐ Ankylosis of elbow joint

Please answer the following questions related to your disease.

a) When and how did you first experience the symptoms of this disease?

b) In your own words, how does this condition affect your daily life and ability to work (walking, sitting, pain)?

c) Did the symptoms get worse over time? If so, what makes the symptoms worse? (e.g., lifting weights, working etc.)

d) Do you experience flare-ups (worsening of symptoms)? If so, how do these flare-ups affect you (e.g., weakness, fatigue, loss of movement)?

Are you right-handed or left-handed (dominant arm)? ☐ Right-handed ☐ Left-handed

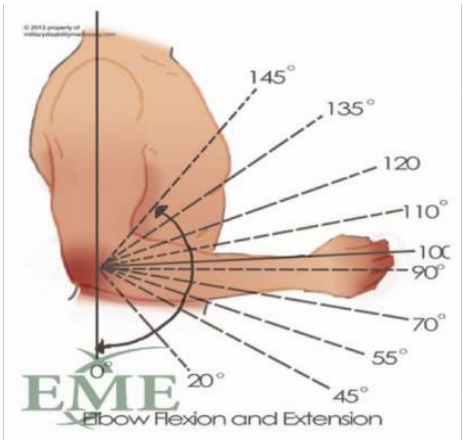

Which elbow is service connected? ☐ Right elbow ☐ Left elbow ☐ Both elbows

Elbow Disability Mini -DBQ (Disability Benefits Questionnaire)

RANGE OF MOTION FOR THE ELBOW: FLEXION AND EXTENSION

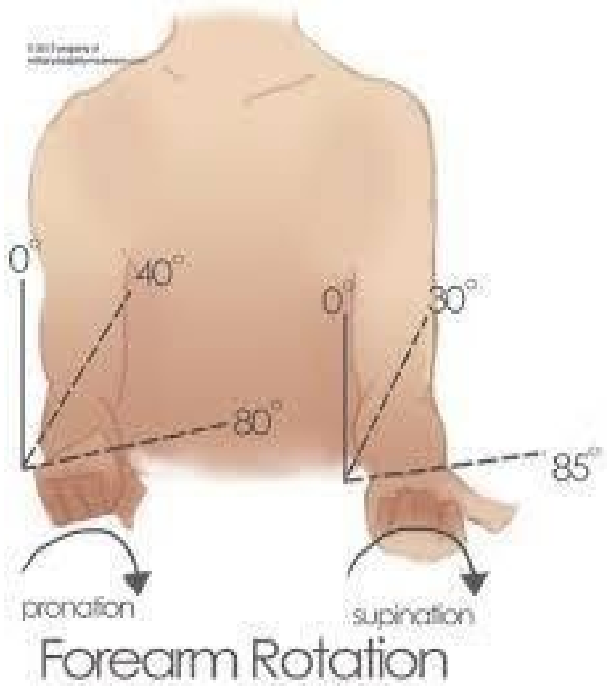

RANGE OF MOTION: FLEXION Flex (bring your elbow closer to your arm) your elbow upwards (as shown below)	
Left Elbow	**Right Elbow**
To which degree can you flex your elbow? *(145 degrees is full range of motion)*	To which degree can you flex your elbow? *(145 degrees is full range of motion)*
FLARE-UPS: Think about your elbow disability over the past year at its worst during a flare-up *(Even if you only have severe episodes once a year or once every 6 months):* **REMEMBER this figure should be less than the one above**	
To which degree can you flex your elbow?	To which degree can you flex your elbow?

RANGE OF MOTION: EXTENSION Flex your elbow downwards (straighten out)	
Left Elbow	**Right Elbow**
Which degree can you extend your elbow? *(0 degrees is full range of motion)*	Which degree can you extend your elbow? 0 degrees is full range of motion)
FLARE-UPS: Think about your elbow disability over the past year at its worst during a flare-up *(Even if you only have severe episodes once a year or once every 6 months):* **REMEMBER this figure should be less than the one above**	
Which degree can you extend your elbow?	Which degree can you extend your elbow?

Elbow Disability Mini -DBQ (Disability Benefits Questionnaire)

RANGE OF MOTION: PRONATION **Perform the pronation as shown in picture with your palm facing downward**	
Left Elbow	**Right Elbow**
To which degree can you pronate your forearm? (80 degree is maximum):	To which degree can you pronate your forearm? (80degree is maximum):
FLARE-UPS: Think about your elbow disability over the past year at its worst during a flare-up or when it starts HURTING. *(Even if you only have severe episodes once a year or once every 6months):* **REMEMBER this figure should be less than the one above**	
To which degree can you pronate your elbow?	To which degree can you pronate your elbow?

RANGE OF MOTION: SUPINATION **Perform the pronation as shown in picture with your palm facing upward**	
Left Elbow	**Right Elbow**
To which degree can you supinate your forearm? (85degree is maximum):	To which degree can you supinate your forearm? (85degree is maximum):
FLARE-UPS: Think about your elbow disability over the past year at its worst during a flare-up or when it starts HURTING. *(Even if you only have severe episodes once a year or once every 6months):* **REMEMBER this figure should be less than the one above**	
To which degree can you supinate your elbow?	To which degree can you supinate your elbow?

Elbow Disability Mini -DBQ (Disability Benefits Questionnaire)

Check the contributing factors affecting the functionality of your elbow:

- ☐ Less movement than normal
- ☐ More movement than normal
- ☐ Weakened movement
- ☐ Pain on movement
- ☐ Excess fatigability
- ☐ Incoordination (Impaired ability to execute skilled movements smoothly)
- ☐ Swelling
- ☐ Deformity
- ☐ Atrophy of disuse
- ☐ Interferes with standing
- ☐ Disturbance of locomotion
- ☐ Interferes with sitting
- ☐ Pain on weight bearing
- ☐ Pain on non-weight bearing/rest/non-movement

Do you have ankylosis of the elbow joint? If so, indicate side affected and severity of ankylosis.

Indicate any surgical procedures that you may have performed along with date of surgery.

Do you have any scars related to your elbow condition? If so, are the scars painful?

Do you use any assistive device to help in movement? *(If yes, please specify)*

☐ Brace	Frequency of use:	☐ Occasional	☐ Regular	☐ Constant
☐ Other	Frequency of use:	☐ Occasional	☐ Regular	☐ Constant
